PROFILE

Passionate Web Developer and Data Science enthusiast with experience building modern, user-friendly digital solutions. Skilled in Full Stack Development (MERN, Flask, SQLAlchemy) and Machine Learning (TensorFlow, Deep Learning). Proven track record of developing functional applications, including e-commerce platforms and task management systems. Dedicated to combining great design with intelligent, data-driven logic to create impactful software.

PROJECTS

1. Inventory Management

(MERN, ML, FastAPI)

https://inventrymanagementj.netlify.app/

Developed a full-stack, AI-powered inventory management dashboard using MERN and FastAPI. Integrated a custom machine learning model to predict sales demand, automate low-stock alerts, and visualize real-time business KPIs.

2. Heart Disease Detector

(HTML, CSS, JavaScript,Python, Flask, Sklearn, Pandas, Matplotlib)

https://heartdisease.pythonanywhere.com/

End-to-end Machine Learning web application deployed on PythonAnywhere. Features a responsive Flask backend and Random Forest model, providing distinct interfaces for raw clinical data entry and user-friendly symptom assessment.

Clients

1. Ratan Industries

(React, CSS, Type Script)

https://ratanindustries.netlify.app/

Designed and developed a professional chemical manufacturing website featuring product catalogs, industry-focused solutions, quality compliance sections, SEO optimization, and a clean, interactive UI built with React.

2. Yash Raj Cab Services

(React, CSS, Type Script)

https://yashrajcabservices.netlify.app/

Built a modern taxi service website for Yash Raj Cab Services, focusing on user-friendly navigation, service clarity, mobile responsiveness, and conversion-driven layout for local, airport, and outstation bookings.

SKILLS

- Frontend: HTML5, CSS3, JavaScript, React.js, TypeScript
- Backend: Python (Flask), Node.Js, Express.Js
- Database: MySQL, MongoDB
- AI/ML: Pandas, Sklearn, ANN
- Tools & Platforms: VS Code, Git & GitHub
- Other: Responsive Design, API Integration, Problem Solving

EDUCATION

Bachelor of Engineering in Computer Engineering (2026 - present)

- Shankersinh Vaghela Bapu Institute of Technology
